From:	Lauren Oxlade	Position:	Director, Corporate & Community Services
Subject:	Tatiara Community Infrastructure Grants		

Council is now inviting applications from local community groups for the Tatiara Community Infrastructure Grants Program.

Funding up to \$10,000 is available for significant upgrades by not for profit groups.

“We welcome applications from community and sporting groups where Council is asked to provide between \$2,000 and \$10,000” said Mayor Liz Goossens.

“This year, we are providing two information sessions for groups who are interested in applying. This will help people to prepare their applications and removes the requirement to meet one-on-one with a Council officer before applying” she said.

The information sessions will be held on Wednesday 9 September at 6.00pm in the Council Chambers in Bordertown, or at 7.00pm online. Registrations are required, with the link on the Tatiara District Council website.

Applications open now and close at midnight on **Tuesday 20 October 2026**, with a decision to be made at Council’s November meeting.

In the 2026/27 financial year, a total funding pool of \$60,000 is available for Major Grants.

“Since starting in 2003, Council’s Community Grants Program has helped to bring to life the ideas of local not for profit groups and sporting clubs” said Mayor Goossens.

To register for an information session, or access the grant guidelines and application form, please visit the Tatiara District Council’s website <https://www.tatiara.sa.gov.au/community-information/grants>. The Council contact for grant enquiries is Tracey Grosser, Manager Development and Economic Growth by email office@tatiara.sa.gov.au or phone (08) 8752 1044.
