INTRODUCTION

Tatiara District Council is committed to open, accountable and responsive decision making which is informed by effective communication and consultation between Council and the community.

In carrying out our consultation processes, Council applies the following principles:

- Members of the community have a right to be informed about issues affecting their area and their lives and to influence council's decisions about these.
- Community interest will vary depending on the issue and the number of people affected, and council's level of consultation will reflect this.
- Community involvement in Council decision making should result in greater confidence in the Council and responsive decision making.
- Council decision making will be open, transparent and accountable.

Our Public Consultation Policy sets out the steps we will take to encourage community involvement in the planning and decision making processes of Council. It is both a policy document and a practical resource.

As a policy document it sets out Council's commitment to, and understanding of community engagement in the Tatiara. As a practical resource, the Community Engagement Framework provides a clear definition of community engagement and importantly sets specific standards for our engagement: When will we engage? Who will we engage? How will we engage?

POLICY OBJECTIVE

The purpose of this policy is to ensure that Council meets its legislative obligations in regard to public consultation by:

- Using appropriate and cost effective methods which are relevant to the specific circumstances of each consultation topic
- Informing and involving the local community, key stakeholders and interested parties
- Using feedback to enhance decision making.

SCOPE

This policy applies to Council Members sitting as the elected body, council employees, contractors, agents and consultants acting on behalf of Council.

The Chief Executive Officer is responsible for the implementation of the Public Consultation Policy, establishing the consultation level, reporting outcomes of the consultations to the council, reviewing the value of the policy, and determining elements within that process where Council has delegated responsibility.

POLICY STATEMENT

The preparation and adoption of this policy fulfils Council's obligations under section 50(1) of the *Local Government Act 1999*. Section 50 provides that:

- The council must set out the steps that the council will follow in cases where the Local Government Act requires consultation on a matter, and
- The council may set out the steps that council will follow in other cases involving the council's decision-making.

In addition, under the Local Government Act the council has the following obligations where it is required by law to follow its public consultation policy.

- Council must provide interested persons with a reasonable opportunity to make submissions regarding relevant matters
- Council must publish a notice in a newspaper circulating in the area and on the council's website, describing the matter under consideration and invite interested persons to make submissions within a period (which must be at least 21 days) stated in the notice
- Council must consider any submission received from the public during the prescribed consultation period.

Council may, from time to time, alter this policy or substitute a new policy. In the instance that any significant changes are being proposed to the public, the council must submit the proposal to a public consultation process.

Other sections of the Local Government Act also refer to consultation requirements, and in some instances set out what a Council must do. See **Specified consultation requirements** below.

Where there are legislative requirements for consultation under other legislation applicable to the council, such as the Development and Infrastructure Act 2016, these specific processes take precedence over this policy, should there be any inconsistency.

COMMUNITY ENGAGEMENT FRAMEWORK

What is community engagement?

Community engagement is best described as a planned process that has a specific purpose of working with identified groups of people, whether they are connected by geographic location, special interest or affiliation to address issues affecting their wellbeing. It has become an essential part of planning, policy development and service delivery within councils and their communities.

Community engagement can take many forms and covers a broad range of activities that can include the following:

Core values

Tatiara District Council is committed to engaging with our community. We recognise that community engagement is an inseparable part of our principal role and function as a council (Sect 6 and 7 Local Government Act 1999).

We have a long history of engaging with our community on many matters and have expressed our commitment as a key objective in its Strategic Plan.

In our engagement with our community, we adopt the best practice principles and elements developed by the International Association for Public Participation (IAP2), the preeminent international organisation advancing the practice of public participation (P2). Our Core Values detailed below are based on these principles:

Core Values

1. Our community engagement is based on the belief that those who are affected by a decision have a right to be involved in the decision-making process.
2. Our engagement includes the promise that our community's contribution will influence the decision.
3. Our community engagement promotes sustainable decisions by recognising and communicating the needs and interests of all participants, including community and Council.
4. We will seek out and facilitate the involvement of those potentially affected by or interested in a decision.
5. We will seek input from participants in designing how they participate.
6. We will provide participants with the information they need to participate in a meaningful way.
7. We will communicate to participants how their input affected the decision.
